Flexibility and Choice Define the Advanced Series!

Don't see the form or check you need for your software? Send full black and white, camera ready art and we can produce the form you need. This series is ideal for new or slightly modified software. Maybe your need is for a letterhead, sales sheet or marketing piece. Use our 24# laser paper and many options to design just what you want. For two color forms, art must be color separated. Composition is subject to charges at factory discretion.

Art for laser or continuous checks should not have:

- MICR
- Arabic Numbers
- Pantographs or Borders

Art is subject to factory approval.

Provide a void check or bank specification sheet for MICR. Signature lines should be 5/8" from the bottom of the check.

Black ink is standard.

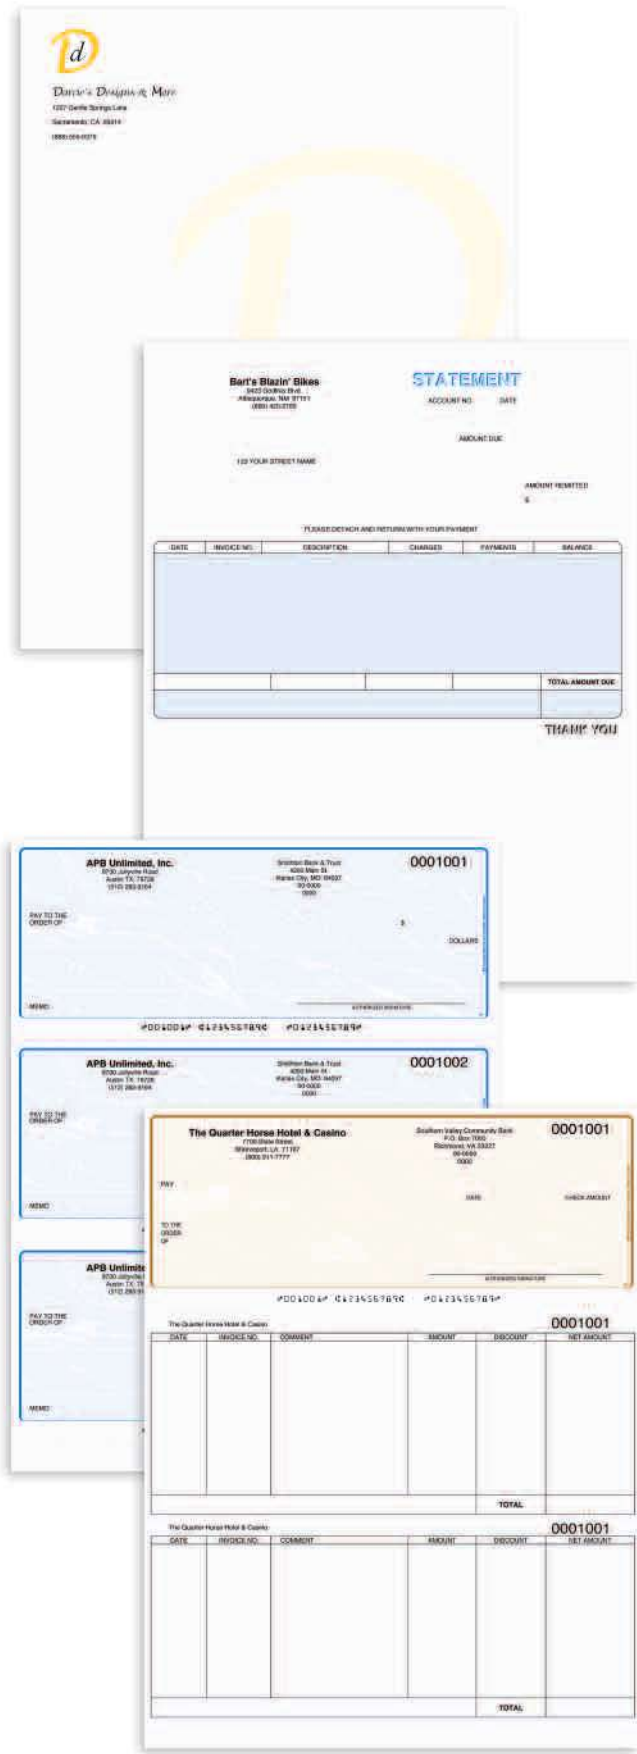

You can add customization to your check or form with the following options:

- Color Options™ – See page 55 (checks and forms)
- Perforations – See page 2 (laser forms only)

For Laser Check pantographs, you have a choice of nine Uncompromised colors and four Uncompromised Plus colors.
